

CUA Chapter of AIAA Taking Off

The CUA Chapter of American Institute of Aeronautics and Astronautics (AIAA) was established last year. The members of the group this year have participated in such events as the Club Fair and Fall Fiesta, and organized Paper Airplane Competition.

Danielle Caruccio, senior in mechanical engineering and Chair of AIAA's CUA Chapter, was one of the club members who hosted the table during E-Week, February 22, 2017.

Jenna Gietl (3rd from left), junior in mechanical engineering and President of AIAA's CUA Chapter, and other club members visited Smithsonian's Udvar-Hazy Air and Space Museum on March 18, 2017. Personal tour was given by Bruce Cranford, CUA alumnus and Emeritus Associate Fellow of AIAA. Cranford obtained his B.S. Degree in Space Science and Applied Physics from CUA in 1967.
